PROFESSIONAL SUMMARY

Full Stack Developer focused on Node.js, TypeScript, and React/Next.js. Bachelor's degree in Computer Science. Hands-on experience building full-stack web applications with NestJS and Next.js, applying clean code practices, automated testing with Jest, Docker, and CI/CD. Personal projects deployed to production with open-source code on GitHub. Seeking an opportunity to work in a collaborative team environment focused on quality and continuous learning.

PROJECTS

StockSnap — Inventory Management System | [Demo](#) | [GitHub](#)

NestJS, Next.js, TypeScript, PostgreSQL, Redis, Jest, Docker, GitHub Actions

- Built a full-stack application with a modular REST API in NestJS (JWT, RBAC, Swagger) and a Next.js frontend using Zustand, type-safe forms with Zod and react-hook-form.
- Implemented Redis caching, a CI/CD pipeline with parallel jobs (lint, type-check, tests, and build), and a containerized environment with Docker Compose.

FlowERP — Enterprise Resource Planning System | [Demo](#) | [GitHub](#)

Laravel, Vue.js, MySQL, Docker, Pest

- Developed an ERP with 5 integrated modules and ACID transactions using pessimistic locking, preventing race conditions and ensuring data consistency.
- Implemented RBAC with 4 permission levels, server-side validation, and 116 automated tests covering business rules and critical workflows.

HydroTrack — IoT Water Telemetry Platform | [Demo](#) | [GitHub](#)

Laravel, Vue.js, MySQL, Leaflet.js, Chart.js, Docker

- Built an IoT monitoring platform with a Laravel REST API (Service Layer, Sanctum) and an interactive dashboard featuring a device map.
- Developed an IoT sensor simulator in the backend to generate real-time telemetry, simulate failures, and trigger automatic alerts.

EDUCATION

Bachelor's Degree in Computer Science — UNINOVE | 02/2018 – 10/2023

Postgraduate Degree in Software Engineering — PUC Minas | 06/2026 – 12/2027 (in progress)

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, PHP

Backend: Node.js, NestJS, Express, Laravel, REST APIs, JWT, Swagger/OpenAPI

Frontend: React, Next.js, Vue.js, Tailwind CSS, Zustand, Pinia

Databases: PostgreSQL, MySQL, Redis, Prisma ORM, Eloquent ORM

Testing: Jest, Vitest, Pest, Supertest, React Testing Library

Tools: Docker, Docker Compose, Git, GitHub Actions, CI/CD, Linux

LANGUAGES

Portuguese (Native) | **English** (Intermediate B1 — fluent technical reading)
